| Totals | 8590 | 709 | 1320 | 11257 | | |

Summary: **297 days (out of 366 days) with a net loss of domains (loss of domains on 81% of the days in 2012)**

64 days (out of 366 days) with a net gain of domains (gain of domains on 17% of the days in 2012)
 5 days (out of 366 days) with net zero - (no gain, no loss)

Of the 37,229 domains registered with SiteSell at the beginning of 2012, they lost 34% of those domains by the end of the year. Yes, they picked up additional domains along the way, but the point is that they obviously have trouble holding on to the ones that they have. Would a company that delivers on their promises have that trouble? Nope.

SiteSell's Domain Loss/Gain By Day, 2013
